

## OCGP and GAC Outstanding Leadership in Globalization Awards

### Award Overview

The Office of Global Partnerships and Purdue's Global Academic Committee are seeking faculty and staff nominations for the Outstanding Leadership in Globalization Awards for impact relevant to any or all of the academic mission categories of Learning, Discovery, and Engagement. The awards are open to all categories of full-time university faculty and staff members. Following the existing college/area procedures for administering faculty and staff awards, each college may submit up to three (3) nominations for each award (i.e. three for faculty and three for staff) by February 15. OGP will collect and submit up to three (3) at-large nominations for both faculty and staff not associated with a particular college. Self-nominations will not be accepted. These awards, created in 2018, are intended to further reinforce the importance of the global outreach undertaken by Purdue University's faculty and staff. The awards demonstrate our institution's commitment to the [Purdue Moves](#) of promoting world-changing research and transformative education, for the benefit of the entire Purdue community of faculty, staff, and students, as well as our stakeholders abroad.
